Are you proud of your breed? You have the right to be! Do you realize that Shorthorns have won the grand championship over all breeds at the International Live Stock Exposition **FOUR TIMES IN THE LAST EIGHT YEARS?** Each of the other beef breeds has won it twice during the same period. Here is the record:

1946	.....	<b>SHORTHORN</b>
1947	.....	<b>SHORTHORN</b>
1948	.....	Angus
1949	.....	Hereford
1950	.....	Hereford
1951	.....	Angus
1952	.....	<b>SHORTHORN</b>

It's a great record for a great breed . . . and **Illinois** can be proud of the fact that the sires of two of these International grand champion Shorthorn steers and the grandsire of a third were all bred in this state. ## *A timely hint . . .*

Let's assume that you want to buy twenty or thirty good bulls for a commercial enterprise or for resale in your home area. Or, let's assume that you want to buy a large number of females . . . the right kind of individuals with the right kind of ancestry. The first question that pops into your mind is, "Where can I get the job done most economically and with the least trouble?"

The answer is **ILLINOIS**. It's the leading Shorthorn state in point of both numbers and quality. It's the state where you get most for your money.

May we make a suggestion? If you want to buy Shorthorns in numbers, why not attend the "Sale of Satisfied Buyers" at Abingdon on Friday, March 6th, and the Illinois Shorthorn Breeders' Show and Sale at Normal on Thursday, March 12th. A total of 65 bulls and 80 females are to be sold in these two important Illinois auctions. The two events are 75 miles apart. Arrangements have been made for the housing and care of Abingdon cattle until after the Illinois State Sale at which time we will help you assemble the cattle for shipment.

What about the five days between these two sales? That will be the best part of your trip. We will supply you with an **Illinois Shorthorn Road Map** and will plan a most interesting trip for you. A total of 185 Illinois herds are spotted on this regulation road map. The locations are so accurately described that you can drive to these farms without asking directions. You will see the most famous sires and the greatest breeding herds in the land. You can buy privately to your hearts content. You will find the quality you want at prices to fit your purse.

Sound interesting? Of course it does! I'll be glad to help you plan a trip you'll never forget. Drop me a line.

**Please note that nearly all of the twenty-six bulls in this sale are ready to use now! Fair Acres Foundation—A dark roan two-year-old son of Imp. Chapelton Clarion by Calrossie Souvenir and out of an imported cow sired by Calrossie Foundation. He has already proved himself an excellent sire. His calves may be seen on our farm and you will agree that they are good. So far his calves have been largely heifers. We offer this bull only because we recently sold 24 females at private sale and do not need so many stock bulls. Visit our farm before the sale. It is only 15 miles from the sale pavilion. You will see some great calves by this bull.

## Just a Word About the Females

There are 34 beautiful females in this sale and they are tops from the herds of the best breeders in the leading Shorthorn state. Most of these heifers were consigned because of a feeling of loyalty toward the Illinois Shorthorn Breeders Association and not because of a desire to part with them.

You can buy better females in this sale than you can possibly obtain at private treaty, and you will save much time and expense in so doing. We hope you will take particular note of the fact that those offered in this sale are daughters of the most famous sires in the land, and many of them are carrying the service of equally famous sires.

Waterloo Rose C—This red, two-year-old heifer is a daughter of Shore Acres Landmark, he an imported-in-dam son of Pittodrie Landmark. Note the strong line of breeding bulls disclosed in this pedigree. We think the heifer is a credit to them. Her dam is one of our good imported cows. She is served by Shore Acres Admiral, a dark roan son of Shore Acres King Achtoi, reserve champion bull at the 1949 Illinois State Fair. Vaccinated for Bang's.

HSF Helen 2d—A roan summer yearling heifer and a full sister to HSF Helen, also selling in this sale. These daughters of Britomac Edwin have been consistently good. They have good heads, are smooth, deep and thick fleshed. The thick natural fleshing of Edwin calves breeds on and this is a very important factor. Remember, you don't feed it on . . . you breed it on. Here is a concentration of that breeding. This heifer carries a long service (Oct. 10, 1952) to Argen Souvenir, the best son of Burnton Edwin. This should be an outstanding calf.

Edellyn Butterfly 14th—Your sale manager insisted that we include one of the top daughters of the famous Edellyn Royal Leader 114th in our state sale consignment . . . so here she is. The first crop of calves by Edellyn Royal Leader 114th included the \$4,900 Edellyn Royal Leader 151st as well as the sensational heifer Ringwell Orange Talisman that won the junior and reserve grand championship at the 1952 International Stock Show. A trio of calves by Edellyn Royal Leader 114th also won the second prize junior get-of-sire at the International. The mother of Edellyn Butterfly 14th is a beautiful imported cow by Bapton Battleship. She is, therefore, closely related to Ringwell Orange Talisman. She is calfhood vaccinated for Bang's and sells open.

# STANDARD GUARANTEE

## OF

### AMERICAN SHORTHORN BREEDERS ASSOCIATION

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction of all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
5. All animals are sold to comply with the laws regulating Tuberculosis and Bang's disease of the state or country into which they may be shipped.
6. Certificates of registry and transfers will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.
7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction.

All animals sold in this Sale will be backed by the above Standard Guarantee.

As a safeguard to prospective buyers, every animal has successfully passed a clean abortion blood test within 30 days prior to the sale, or will have Certificates of Bangs Calfhod Vaccination, and those that are not from Accredited herds have passed a clean Tuberculin test within the same period. Health certificates will be provided with each lot sold.
